DETAILED ACTION

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: the closest prior art of record (Kinney et al., U.S. Patent No. 5,808,662) and (Shaw et al., U.S. Patent 5,815,689) does not teach or suggest in detail wherein the master control component is also to receive a user request for a new playback speed and communicate the new playback speed to the plurality of individual stream controls, and the master control component is to communicate the new playback speed to the plurality of individual stream controls by sending a message to each of the plurality of individual stream controls in combination with all the elements of the independent claims as argued by Applicants (page 27, lines 10-23, page 28, lines 15-24, page 29, lines 1-25 and page 30, lines 1-17 of Applicants enabling portions of the specification). So as indicated by the above statements, Applicants' arguments have been consider persuasive, in light of the claims limitations.

2. The dependent claims further limit the independent claims and are considered allowable on the same basis as the independent claims as well as for the further limitations set forth.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Claims **24, 27, 28 and 58-93** are allowed.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to LaShonda T. Jacobs whose telephone number is 571-272-4004. The examiner can normally be reached on 8:30 A.M.-5:00 P.M..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ario Etienne can be reached on 571-272-4001. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
